- ▷ **4 times reversible blades**

AL 43SH

AL 65U

AL 33/S

To achieve that perfect cut, use the mal in conjunction with the AL range

Probst Block Cutter AL

High stability, exact guide of the knives. Quick manual through favourable transmission of the telescope eccentric lever. Spring-loaded surface (table), therefore exact diagonal cutting. The knives are both usable 4 times reversible, thus a long duration is guaranteed. The knives can be reversed quickly and without any problem. Simple quick adjustment of the cutting height.

The swing-suspended upper knife is also cutting materials having conical diameter (as kerb stones).

Type AL 43/U cuts kerb stones up to 30 cm also of natural stones.

Type AL 33/S is especially suitable for cutting clinker and natural stones. With single spring-loaded "cutting-teeth" which averages out the irregularities.

Type	cutting length		cutting height		weight		Article no. order
	(mm)	(in)	(mm)	(in)	(kg)	(lbs)	
AL 33	330	13"	10 - 120	3/8-4 3/4"	40	88	5120.0001
